

Floor Sensor Probe 10m

Floor sensors monitor temperature so that a thermostat can tell when the heating should be on or off.

- Always install an extra floor temperature sensor with underfloor heating applications.
- Works with all ThermoSphere thermostats.

Technical data

Code	FSPB-10-10
Rating	NTC 10K Ω @ 25°C
Colour	Black or white
Polarity	Not polarity sensitive
Max cable extension	50Lm
Protection rating	IP66
Sensor size	W 29 x H 7 x D 6mm
Length	10m
Warranty	3 years
